

COMPARING AND CONTRASTING USING A VENN DIAGRAM

by MS. BROCATO

COMPARING AND CONTRASTING

Comparing means to show how two or more things are similar to each other.

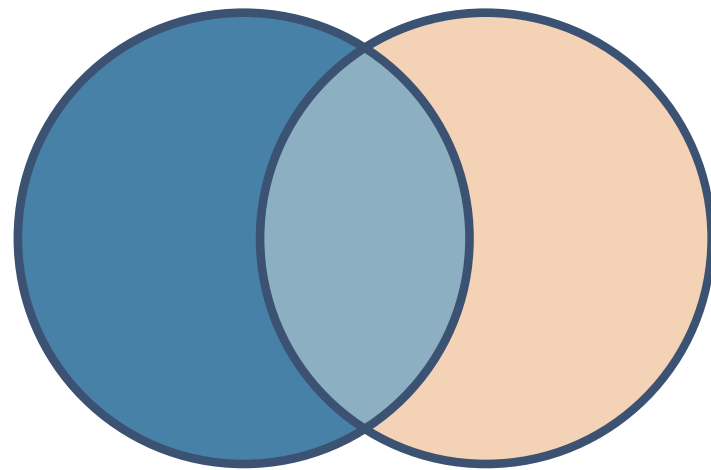

Contrasting means to show how two or more things are different from each other.

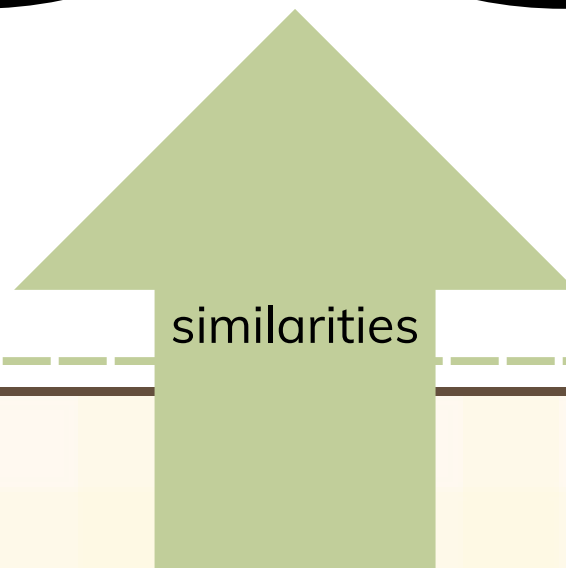

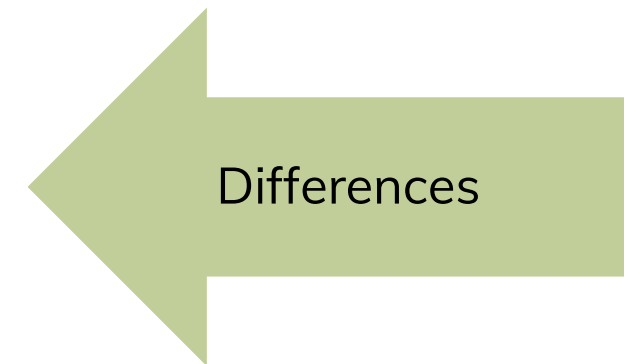

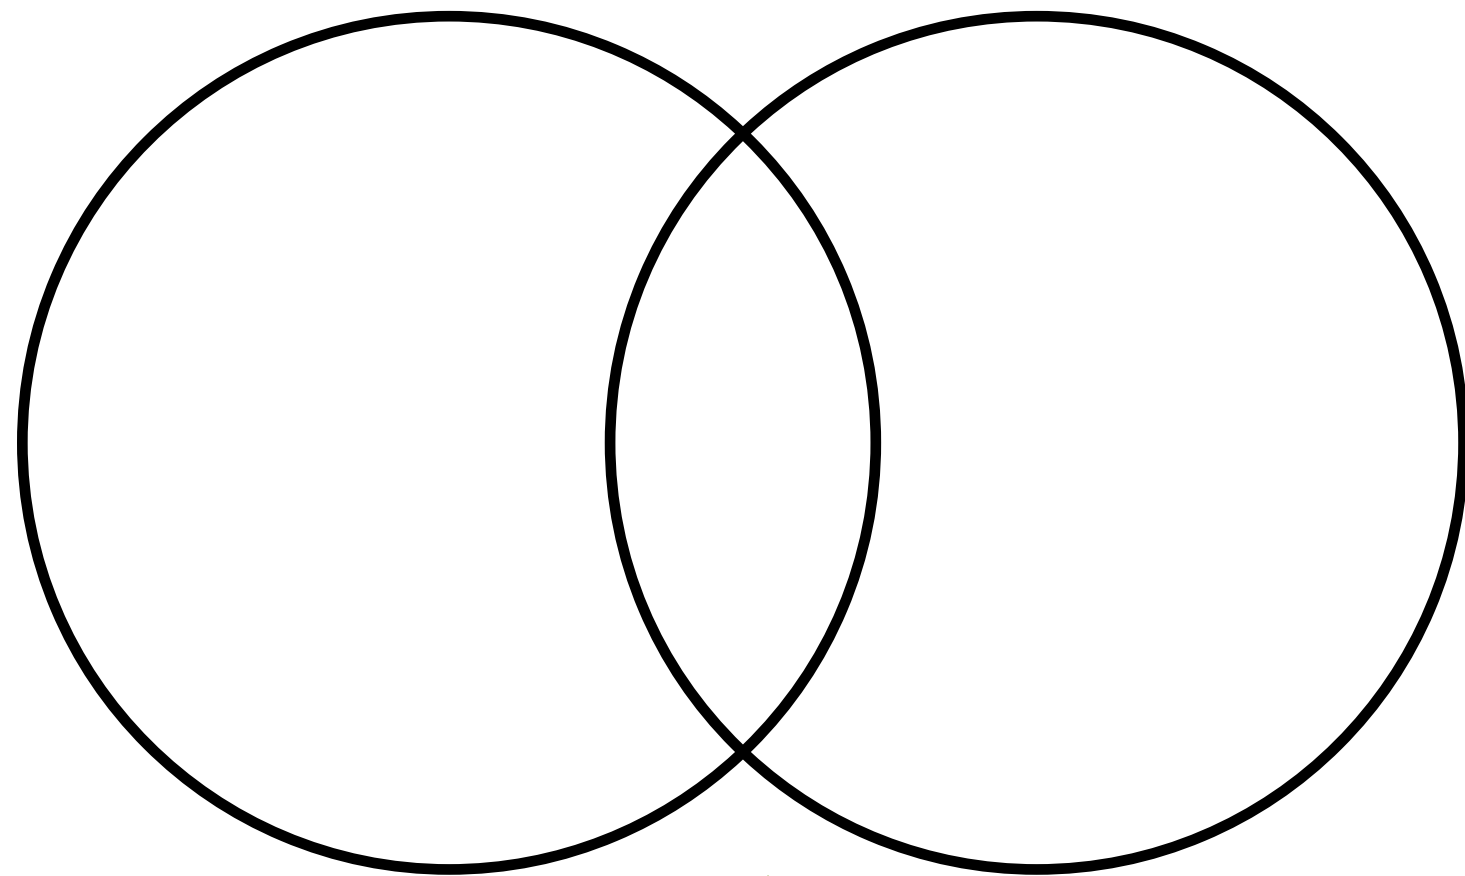

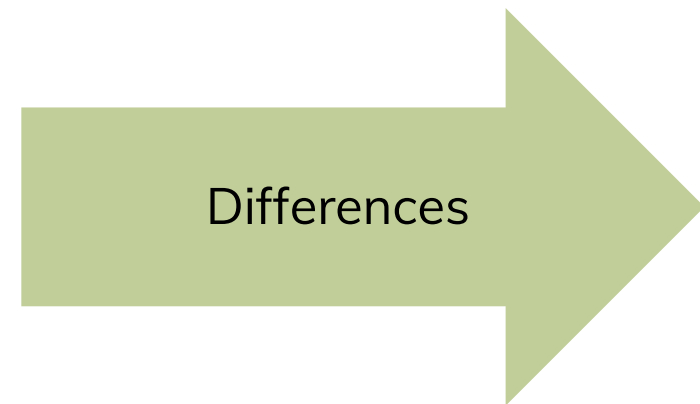

DEFINITION OF A VENN DIAGRAM

A venn diagram is two or more circles overlapped with each other to show how two or more things are similar and how they are different. We can use these to **compare** and **contrast** two or more things.

VISUAL BREAKDOWN

EXAMPLE

Fairytales

Talltales
